PERFORMANCE & SPECIFICATIONS

The Vision Jet is a breakthrough in personal aviation. It goes faster: 300+ KTAS cruising speed. It goes farther: over 1,200 nm. It carries more payload: up to five adults and two children. But the remarkable achievement is that you can have this level of jet performance in a true personal aircraft that doesn’t require an entire flight operations department to fly and maintain it.

STANDARD FEATURES

- Full Authority Digital Engine Control (FADEC)
- Cirrus Airframe Parachute System® (CAPS®)
- Perspective Touch™ by Garmin®
- Dual WAAS GPS/Comm/Nav Radios
- Aircraft Systems Synoptics Display
- Dual AHRS, ADC & Pitot Static
- NextGen Transponder (ADS-B Out)
- Synthetic Vision Technology
- FlightCharts® & SafeTaxi®
- Weather DataLink & Audio Entertainment
- 300 lb Baggage Capacity
- Certified Flight Into Known Ice
- Modular Seating for Five Adults
- Intelligent Batteries

GFC 700 Autopilot including:
- Electronic Stability & Protection (ESP)
- Emergency Descent Mode
- Blue Level Button
- Autopilot Stall Protection
- Leather Interior
- Air Conditioning with Automatic Climate Control
- USB Power Ports
- Stall Protection Stick Shaker & Pusher
- Fits inside Standard 40 ft (12.2 m) Hangar
- Cargo X-Tend™
- ADS-B In Weather and Traffic
- TAWS-B

OPTIONAL EQUIPMENT

- Digital Real-Time Weather Radar
- SurfaceWatch™
- 6th and 7th Third Row Seats
- Executive Seating Configuration
- 22” Entertainment Display
- 115 VAC Power
- Rear Passenger Climate Controls
- Cirrus Global Connect

XIR™ (Individualized Exterior & Interior)
- Multi-Tone Paint
- Enhanced Interior Lighting
- Enhanced Vision System Camera
- Gold Reflective Windshield & Cabin Windows
- Relief Station
- Auto Throttle
- Interior Sound Reduction

ENGINE

- Manufacturer: Williams International
- Model: FJ33-5A
- Thrust (Approx.): Approx. 1800 lbs

INTELLIGENT AUTOMATION

One of the many hallmarks of Cirrus Aircraft innovation is our constant improvement of the flight experience – and Cirrus Perspective Touch+™ by Garmin® leads the way. Perspective Touch+ enhances the revolutionary flight deck experience first introduced on the Vision Jet with faster hardware, adding speed and space for future upgrades. And Intelligent Batteries ensure improved cold start capabilities and a simplified electrical system. You will enjoy faster start up, better screen resolution, faster panning and faster scrolling. And that’s just the beginning.

Autothrottle brings added sophistication to your Generation 2 Vision Jet, by allowing you to program your entire flight profile, including climbs and descents. Like using cruise control in your car, Autothrottle controls your airspeed with the push of a single button so you can navigate a busy terminal environment during your approach. And the added convenience of Surface Watch increases your situational awareness of the airport environment so you can better anticipate your arrival.

The intelligent automation in the Vision Jet opens up a whole new flight of possibilities.
Every travel mission is unique. From passenger and gear loads to weather changes and distances, the Vision Jet adapts to your specific travel needs. With Generation 2, an expanded flight envelop to FL310 broadens your options. Increase your range to over 1,200nm or choose to carry an additional 150lbs on an 800nm mission. And with Reduced Vertical Separation Minimum (RVSM) capability, your Vision Jet can fly efficiently navigate higher flight levels. It’s one more way to experience The Cirrus Life™, at jet speed.

ELEVATED CAPABILITIES

The Vision Jet is the recipient of the prestigious Robert J. Collier Trophy, awarded each year by the National Aeronautic Association each year since 1911. Throughout the history of powered flight, the NAA has been the steward for the nation’s most prestigious aviation awards. As the most notable of these awards, the Collier Trophy represents an historical timeline of the most celebrated advancements in flight and air safety.
